

# Shaken. Not Stirred.

No MIX™ is a revolutionary paint system that is changing the face of the automotive refinish industry. Its unique composition enables hiding in as little as two coats along with exceptional metallic and pearl control. This technology also eliminates the need for costly mixing banks. With No MIX™, you just shake and pour!

Transtar's No MIX™ Basecoat System is available for over-the-counter purchase exclusively through authorized Transtar distributors. To learn how you can save time and money with this one of a kind basecoat system, please call 1.800.871.9307.
